What are my advantages with Bharti AXA Life Aajeevan Sampatti+?

Limited Pay Period:

You may choose a Premium Payment Term of 10 years or 15 years at inception of your Policy.

Guaranteed Annual Payouts:

This plan assures Guaranteed Annual Payouts until Maturity (except in the policy year coinciding with maturity). Once you complete the 10th Policy year, you will start receiving an annual payout until maturity or death of Life Insured, whichever is earlier, subject to policy being in-force. The Guaranteed Annual Payout percentage depends on the Policy term option chosen and is mentioned below.

Policy Term	Guaranteed Annual Payout Percentage
To age 100	5.5% of Sum Assured on Maturity
To age 85	6% of Sum Assured on Maturity

Cash Bonuses:

This Policy also offers non-guaranteed cash bonuses subject to the policy being in-force. The Policy participates in the performance of the participating insurance fund and surplus is distributed as bonus. This non-guaranteed benefit (as percentage of Sum Assured on Maturity) is paid out as a cash bonus every year starting from the 6th Policy year, until maturity or death, whichever is earlier. No bonuses shall be payable in the first 5 policy years.

Guaranteed Payout starts from the end of 10th year onwards until the age of 100/85 years (or death) if the policy is still in-force

Life Insurance benefit:

Your coverage under the Policy will continue until you reach the age of either 100 or 85 years as per the Policy term selected.

In case of unfortunate event of loss of life of Life Insured (applicable even in case of minor lives), subject to the Policy being in-force, the Sum Assured payable on death will be higher of:

- a) Sum Assured on Maturity OR
- b) 11 times Annualised Premium OR

The death benefit payable shall be higher of Sum Assured payable on death or 105% of all premiums paid (excluding an underwriting extra premium).

In case of death during the Grace period, the Death Benefit after deducting the unpaid due premium shall be paid.

In case of death after the policy is converted into paid-up the Paid up value on death will be paid to the nominee.

In case the policy is Lapsed, no Death benefit is payable.

The Annualised Premium is the sum of premiums payable in a policy year and excludes modal factors and underwriting extra (if applicable)

Maturity Benefit:

Sum Assured on Maturity is paid if the Life Insured survives till the maturity of the Policy and the policy is in-force.

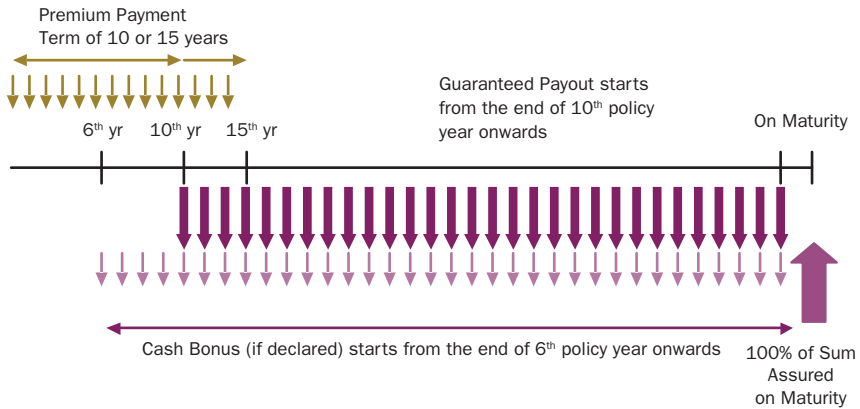

Discounts on opting for a Higher Sum Assured:

You will be eligible to receive a discount on your base premium rate if you opt for a Sum Assured on Maturity of ₹ 4,00,000 or more.

Tax Benefits:

You may avail of tax benefits on the premiums paid as well as the benefits received as per the prevailing tax laws under Section 80C and Section 10 (10D) of the Income Tax Act, 1961. The tax benefits are subject to change as per change in tax laws from time to time.

How does the Product work?

What premiums do I need to pay?

Premium rates applicable to you will depend on your age, Premium Payment Term, policy term and the selected Sum Assured on Maturity.

High Sum Assured Discount:

You will receive a discount in premium rate if you choose a higher Sum Assured on Maturity.

Sum Assured	Premium Rate Discount
Equal to or greater than ₹ 4,00,000	Premium Discount rate is 2%.

Premium Payment Mode:

You may choose monthly, quarterly, semi-annual or annual Premium Payment Mode. Quarterly and monthly modes for autopay only.

Mode chosen	Premium amount
Monthly premium	Equal to 0.09 of annualised premium
Quarterly premium	Equal to 0.27 of annualised premium
Semi-annual premium	Equal to 0.52 of annualised premium

Service Tax & Cess will be levied as per prevailing rates.

What happens if I am unable to pay premiums?

While we recommend that all your premiums be paid on the respective due dates, we also understand that sudden changes in lifestyle like an increase in responsibility or an unexpected increase in household expenses may affect your ability to pay future premiums. You have following flexibilities in order to ensure that your benefits under the Policy continue in full or part.

Grace Period:

Grace period is the period after the premium due date, during which you may pay your premiums without any impact on the Policy benefits. The grace period for all Premium Payment Modes is 30 days.

Lapsation

If the Premium is not paid on the due date Policyholder gets a 30 days Grace Period to pay due premiums, Benefits under the policy remain unaltered during this period.

If Policy has not acquired a Surrender Value:

If policyholder does not pay the due premiums within the Grace Period, the policy shall lapse with effect from the date of such unpaid premium ('lapse date'). Policyholder will get two (2) years to Reinstate the Policy from the date of the first unpaid premium.

If the policyholder does not reinstate the Policy within the period allowed for reinstatement, the Policy shall be terminated on the completion of the period allowed for reinstatement and no benefits shall be payable.

Policy cover up to the age of 100 years

If Policy has acquired a Surrender Value:

The policy acquires a surrender value after the payment of one Annualised Premium. If policyholder does not pay the due premiums within the Grace Period, the Policy shall be converted into paid up, with effect from the date of such unpaid premium ('lapse date'). Policyholder will get two (2) years to Reinstatement the Policy from the date of the first unpaid premium.

If the policyholder does not reinstate the Policy or surrender the Policy within the period allowed for reinstatement, the Policy shall continue in paid up status and the paid up value as on the date the policy becomes Paid Up, shall be payable either on death or on maturity of the policy.

If the policyholder reinstates the policy during the reinstatement period then all benefits will be reinstated.

Loans under Policy:

Financial burdens cannot be predicted and may arise at any time. Hence this Policy offers you the flexibility to take a loan from the Company. This is only possible if all your premiums due under the Policy are paid and the Policy has acquired Surrender Value. The maximum amount of loan will not exceed 70% of the acquired Surrender Value. The loans given under the Policy are as per the Policy provisions.

Reinstatement:

You have a flexibility to reinstate all the benefits under your policy within two years if your policy has lapsed or is in paid up status after the due date of the premium in default. However, the Company would require:

- a) A written application from you for reinstatement;
- b) Satisfactory evidence of insurability;
- c) Payment of all overdue premiums with interest as specified by company from time to time;

Reduced Paid up Value:

If the policy has acquired a Surrender Value and has thereafter lapsed due to any reasons then the policy will be converted into paid up. Once the policy becomes paid up, the base benefits shall be reduced to a paid up value.

The Policy shall cease to participate in any future bonuses (if any) that may be declared by the Company. The Policyholder shall be entitled to Paid Up Value as on the date the policy becomes Paid Up and this will be paid either on death or on maturity of the policy as applicable. The Guaranteed Annual Payouts will be calculated on the Paid Up value on maturity. In case of surrender of a paid up policy, the surrender value will be as per policy provisions.

Paid up value on Maturity = $\frac{\text{Number of Premiums paid} \times \text{Sum Assured on Maturity}}{\text{Premium Payment Term}}$

Paid up value on Death = $\frac{\text{Number of Premiums paid} \times \text{Sum Assured on death}}{\text{Premium Payment Term}}$

In Case of Death or Maturity, Paid up value as shown above will be paid to the nominee/policyholder

In case of a paid up policy, the benefits payable on Surrender will be calculated as follows:

Paid Up value on surrender = Paid Up Value on Maturity X Special surrender value factor/1000

Non-guaranteed bonus received as cash benefit from the end of 6th policy year until maturity or death

Can I surrender my policy?

We would want you to pay premiums regularly till the end of Premium Payment Term and stay invested till maturity to get maximum benefits under the policy. However incase you are not able to pay all premiums and want to exit the policy earlier then only surrender value (if acquired) will be payable to you.

Surrender Value:

The policy acquires a surrender value after the payment of one Annualised Premium Guaranteed. Surrender value is calculated as a percentage of all premiums paid excluding any extra premium.

The guaranteed Surrender Value factors at different policy years are as mentioned in the table below:

Premium Payment Term/Policy Year	10 years	15 years	Premium Payment Term/Policy Year	10 years	15 years
1	10%	10%	16	60%	55%
2	10%	10%	17	60%	55%

14	55%	55%	29	90%	80%
15	60%	55%	30	90%	90%

The sum of all survival benefits already paid will be deducted from this surrender value.

The Company shall declare special surrender values at such other rates not less than the Guaranteed Surrender Value specified above. These rates are not guaranteed and will be declared by the company from time to time, subject to prior approval from IRDA.

- His retirement savings like PF, PPF may be compromised because of daily expenses
