5.4 Investment Fund Valuation
The valuation of assets under each Investment Fund will be done in accordance with the regulations issued by the Insurance Regulatory and Development Authority ('IRDA') in that regard (and is subject to change in accordance with the changes in regulations) and the internal rules of The Company.

The Unit Price shall be computed based on whether The Company is purchasing (appropriation price) or selling (expropriation price) the assets in order to meet the day to day transactions of Unit Allocations and Unit redemptions i.e. The Company shall be required to sell/purchase the assets if Unit redemptions/Allocations exceed Unit Allocations/redemptions at the Valuation Date.

The Appropriation price shall apply in a situation when The Company is required to purchase the assets to allocate the Units at the Valuation Date. This shall be the amount of money that The Company should put into the fund in respect of each Unit it allocates in order to preserve the interests of the existing Policyholders. The Unit Price will be computed as follows: Market value of investment held by the fund plus the expenses incurred in the purchase of the assets plus the value of any current assets plus any accrued income net of fund management charges less the value of any current liabilities less provisions, if any. This gives the net asset value of the fund. Dividing by the number of Units existing at the Valuation Date (before any new Units are allocated), gives the Unit Price of the fund under consideration.

The Expropriation price shall apply in a situation when The Company is required to sell assets to redeem the Units at the Valuation Date. This shall be the amount of money that The Company should take out of the fund in respect of each Unit it cancels in order to preserve the interests of the continuing Policyholders. The Unit Price will be computed as follows: Market Value of investment held by the fund less the expenses incurred in the sale of the assets plus the value of any current assets plus any accrued income net of fund management charges less the value of any current liabilities less provisions, if any. This gives the net asset value of the fund. Dividing by the number of Units existing at the Valuation Date (before any Units are redeemed), gives the Unit Price of the fund under consideration.

The Company is aiming to value the Investment Funds on each day the financial markets are open. The Company however, reserves the right to value less frequently in extreme circumstances, where the value of the assets may be too uncertain. In such circumstances The Company may defer valuation of assets until normality returns. Examples of such circumstances are:
  a) When one or more stock exchanges which provide a basis for valuation for a substantial portion of the assets of the fund are closed other than for ordinary holidays.
  b) When, as a result of political, economic, monetary or any circumstances out of the control of The Company, the disposal of the assets of the Investment Fund are not reasonable or would not
reasonably be practicable without being detrimental to the interests of the remaining Policyholders invested in the Investment Fund;
c) During periods of extreme volatility of markets during which surrenders and Switches would, in the opinion of The Company, be detrimental to the interests of the existing Policyholders invested in the Investment Fund;
d) In case of natural calamities, strikes, war, civil unrest, riots and bandhs;
e) In event of any force majeure or disaster that affects our normal functioning;
f) If so desired by the Insurance Regulatory and Development Authority.

5.5 Investment Fund Addition
The Company may from time to time create and add new Investment Funds with different fees/charges with the approval of the Insurance Regulatory and Development Authority and consequently, new Investment Funds may be made available to You. All provisions of the Policy will apply to such new Investment Funds unless stated otherwise.

5.6 Investment Fund Closure
The Company reserves the right to close any Investment Fund at any time by giving a three month written notice of its intention to close an Investment Fund and from the date of such closure The Company will cease to create or cancel Units in the said Investment Fund (‘Closing Investment Fund’). Closure of an Investment Fund will be on the happening of an event which in the sole opinion of The Company requires the said Investment Fund to be closed and such closure of an Investment Fund shall be subject to prior approval of Insurance Regulatory and Development Authority. The Company will require the Policyholder who has invested in the Closing Investment Fund to replace it with another Investment Fund/s (‘Replacing Investment Fund’) in the form specified by The Company and before the date specified in the written notice of The Company. Upon receiving Your notification, Units in the Closing Investment Fund allocated to this Policy will be cancelled on the last Valuation Date of the Closing Investment Fund. The Company will replace the Closing Investment Fund with the Replacing Investment Fund/s chosen by You, by creating Units in the Replacing Investment Fund/s, with proceeds from the cancellation of Units in the Closing Investment Fund on the last Valuation Date of the Closing Investment Fund.

If The Company has not received valid notification from You for modification of Your Investment Fund Allocation by the time of closure of the Investment Fund, The Company will:
- Switch Your funds from the Closing Investment Fund to the most conservative Investment Fund then available; and
- Change Your Investment Fund Allocation in such a way that the percentage allocated to the Closing Investment Fund is added to the percentage allocated to the most conservative Investment Fund option then available. Currently the most conservative Investment Fund option is Safe Money Fund. The Company would however declare the most conservative Investment Fund option from time to time depending upon its then current Investment profile.

5.7 Switch amongst Investment Funds
You can apply for Switch of Your Investment Fund/s from one Investment Fund to another through a Switch Application Form specified by The Company. The facility of Switch would be subject to the administrative rules of The Company, existing at the time of Your Switch application. Switch of funds will be effected at a Unit Price declared on the date Your Switch application is received and accepted by The Company before 3.00 p.m. and on the next day’s Unit Price declared if the application is received and accepted at The Company after 3.00 p.m. You are entitled to make twelve Switches per Policy Year free of charge. Every additional Switch in a Policy Year would be subject to a charge as mentioned in Section7. Unutilised Switches of any Policy Year cannot be carried forward to the succeeding Policy Years. The minimum amount of a Switch transaction should be Rs.1,000.

Switch among Investment Funds is not allowed during the Reinstatement period (if the Policy is in Lapse stage) and Extended Maturity Period.

5.8 Risks of investments
Investments in any of the Investment Funds are subject to the following, amongst other risks:
- The premium paid in Unit Linked Insurance policies are subject to investment risks associated with capital markets and the NAVs of the units may go up or down based on the performance of the fund and factors influencing the capital market and the insured is responsible for his/her decisions.
- The past performance of these or other Investment Funds of The Company do not indicate the future performance of these Investment Funds.
- The investment risk in investment portfolio is borne by the Policyholder.

SECTION 6: UNITS

6.1 Creation of Units
The Units shall be created based on the Unit Price.

Units will be created in the Investment Fund/s on receipt by The Company of the premium (except first year regular annual premium) alongwith a local cheque/demand draft payable at par at the place where the premium/application for Switch is received on the following basis:

- the same day’s closing Unit Price shall be applicable if received by 3.00 p.m.
- the next day’s closing Unit Price shall be applicable if received after 3.00 p.m.

In respect of premiums received with outstation cheques/demand drafts at the place where the premium is received, the closing Unit Price of the day on which cheques/demand draft is realized shall be applicable.

In case the premium is paid in advance, Units will be created only on the due date. No interest shall be payable on premium paid in advance.

6.2 Cancellation of Units
Units will be cancelled from the Investment Funds, wherein an application (including claims, surrender, Policy closure, Switch request, partial withdrawal, free look closure) is received by The Company:

- by 3.00 p.m., at the same day’s closing Unit Price shall be applicable.
- after 3.00 p.m., at the next day’s closing Unit Price shall be applicable.

Under extraordinary circumstances, such as extreme volatility of the value of the investments of the Investment Funds The Company may delay cancellation of Units from an Investment Fund if it is necessary to do so in order to maintain fairness and equity between Policyholders remaining in that Investment Fund and the Policyholders leaving that Investment Fund. Where this applies, The Company may delay cancellation of all or part of the Investment Funds for upto 30 days. If The Company delays the cancellation, The Company will use the Unit Prices that apply on the day on which the cancellation actually takes place.
